The backside is further highlighted by the early factory label that additionally enhances this stunning piece of Cobb history! Early 1900's A.J. Reach Crescent Pad Glove

This is an adult-sized, high-quality A.J. Reach crescent glove. It's sturdy and solid and has never been cleaned. It could clean to a bright white. It has a slit or cut on the front left side of the crescent, visible in pic. The asbestos lining has a small hole right above where your index finger would go but you can't feel it while on and it feels great on the hand. The tag is a bit worn but complete. High end white crescents are a prize, but it's a duplicate.....\$1,400

## Letter of Authentication

To Whom It May Concern:

This letter will serve as a certificate of authenticity for the following autograph(s) authenticated for American Memorabilia in April 2005. American Memorabilia describes the item(s) as:

"Lot: 394  
 Ref: 18696

Mickey Mantle Signed "Mickey Mantle" Model Glove

This particular gem was probably furnished to a high school or college player. It is a Rawlings model XPGH (c. 1965-'68) - the retail version of Mantle's standard game glove, the XPG6. The mitt is identical to Mickey's, even to feature the custom "H-web." (Interestingly, this is identical to the famous glove that was won by Billy Crystal in the Barry Halper Auction.) Because of the oil used on this exclusive store model specimen, the Mantle signature on the middle finger rates about "6", however, still very legible. This rarity was consigned from the original owner, who purchased it in the mid '60's."

This item has been examined by one or more PSA/DNA experts. On behalf of Collectors Universe, it is our considered opinion that the signature(s) is/are genuine. For information on how to receive a full authentication upgrade on the item(s) above, please contact PSA/DNA for details.

On behalf of the PSA/DNA Authentication Team

c. 1931 Woody English Stall & Dean 8055 Three Finger Glove

This is a rare, one or two year model. It was the most expensive glove in Stall & Dean's 1931 line at \$9.00. To top it off, it's one of three known Stall & Dean pre-war 3's. It is extremely supple and feels fantastic on the hand. The interior and exterior leather are smooth and free of holes. It features a bold block letter endorsement as well as a facsimile signature, called a double signature. The back of the thumb reads boldly in script, "Insist on Stall & Dean". Two seams have a period re-stitch and it's nicely and expertly done, but since the third example has the same thumb stitch, maybe it's original. I can't say enough how nice this glove is. Just put it on.....\$600

**Woody English**  
Championship Models

The brilliant playing of Woody English, star shortstop of the Chicago Cubs was one of the outstanding features of their march to the National League pennant. "Woody," as he is familiarly known to literally thousands of fans, is rated by the critics as the most valuable shortstop in the National League. He came to the Cubs from Toledo in 1927 and his playing since that time has been nothing short of sensational.

**The Woody English World's Championship Model.** Built on his own personal specifications by Stall and Dean. The finest selected horsehide obtainable is used throughout for palm, back, fingers, and lining. It is a wide pattern, has large thumb, and deep pocket. The seam between thumb and palm is reinforced. Specially oil treated. Turned loop web, rawhide lacing at heel. A real big league glove made in either the regular four-finger or special three-finger style.

1920's Eddie Collins A.J. Reach EC Glove

This rare and elusive 1920's Eddie Collins Reach Glove was tailored in Reach's famed "reaco" white suede, with a full horsehide lining. When initially offered, the glove really stood apart from others not only for its brilliant color and style but, for being nearly identical to the actual glove that Eddie Collins used while playing second base for the Chicago White Sox. Eddie was arguably one of the sport's all-time greats and a superb 2nd baseman which, is as fitting as this glove's scarcity: to date there have been only five known surviving documented examples of this white beauty! This particular Reach EC has been conservatively maintained like a true time capsule, as if the last lucky lefty gently stored it away in a drawer and froze it in time.....\$2,300

Spalding Figure 8 Advertising Ball

This very well may be an advertising display piece from the same era as the porcelain sign as printing is the same. Has been stored a long time, measures about .29", almost the same as a girls Basketball. Weight is 4 pounds 2.6 oz. The leather is dry and cracked in areas. The only printing is what you see is SPALDING. I have not been able to find this in a catalog, also do not see it as a medicine ball laced like a baseball, although the feel is like a medicine ball, not in perfect shape anymore. Only one spot has the broken lace, which is leather. An old counter display ???.....\$1,500
