Wilson

WILSON GLOVES ARE Top Choice IN THE MAJORS!

says HARVEY KUENN
Detroit Tigers star shortstop

"I'm just one of the many young players in baseball who are depending on the fielding security of the new Wilson baseball gloves. I have found that these Wilson gloves provide that extra confidence that makes those tough plays easier. My new Wilson glove is ready-for-action on the fastest double plays. Try the new Wilson glove—you'll come to depend on it just like I do!"

COMPARE THESE GREAT WILSON FEATURES

1. **Curved Streamlined Fingers***—keeps hand relaxed and ready for instant action for gripping the ball.
2. **Finger Tip Lacing**—on high throws and high batted balls that are almost out of reach . . . keeps fingers together so balls can't go through. Adjustable to give glove action control so fingers can work as a unit.
3. **Hold-Tite Wrist Adjustment** — snugs the wrist for easier glove control. Smaller player can adjust to fit his smaller wrist; larger player to fit his larger wrist.
4. **Adjustable Palm Lacing†**—enables you to adjust the padding and pocket. Holds padding securely in place. Tighten the padding and you increase the size of your pocket . . . for better glove control and easier play.
5. **U Cut-Out Crotch Grip-Tite Pocket**—gives wider pocket and ball entrance area. Increase glove flexibility so you can grip the ball tighter. Truly, it's GRIP-TITE!
6. **Crotch lacing**—90% of the balls are caught in crotch. Acts as a reinforcer to add years of wear to your glove. Keeps pocket area smooth and free from wrinkles.
7. **Narrow Style Contour Heel** — increases pocket area and aids breaking-in. Provides a more flexible, lighter and easier-to-play glove.

Wilson BIG SCOOP

BASEMEN'S MITTS

GREATEST
ADVANCE
IN BASEMEN'S MITTS
IN A GENERATION

Designed for glittering fielding performances, these sensational new Wilson BIG SCOOP basemen mitts feature:

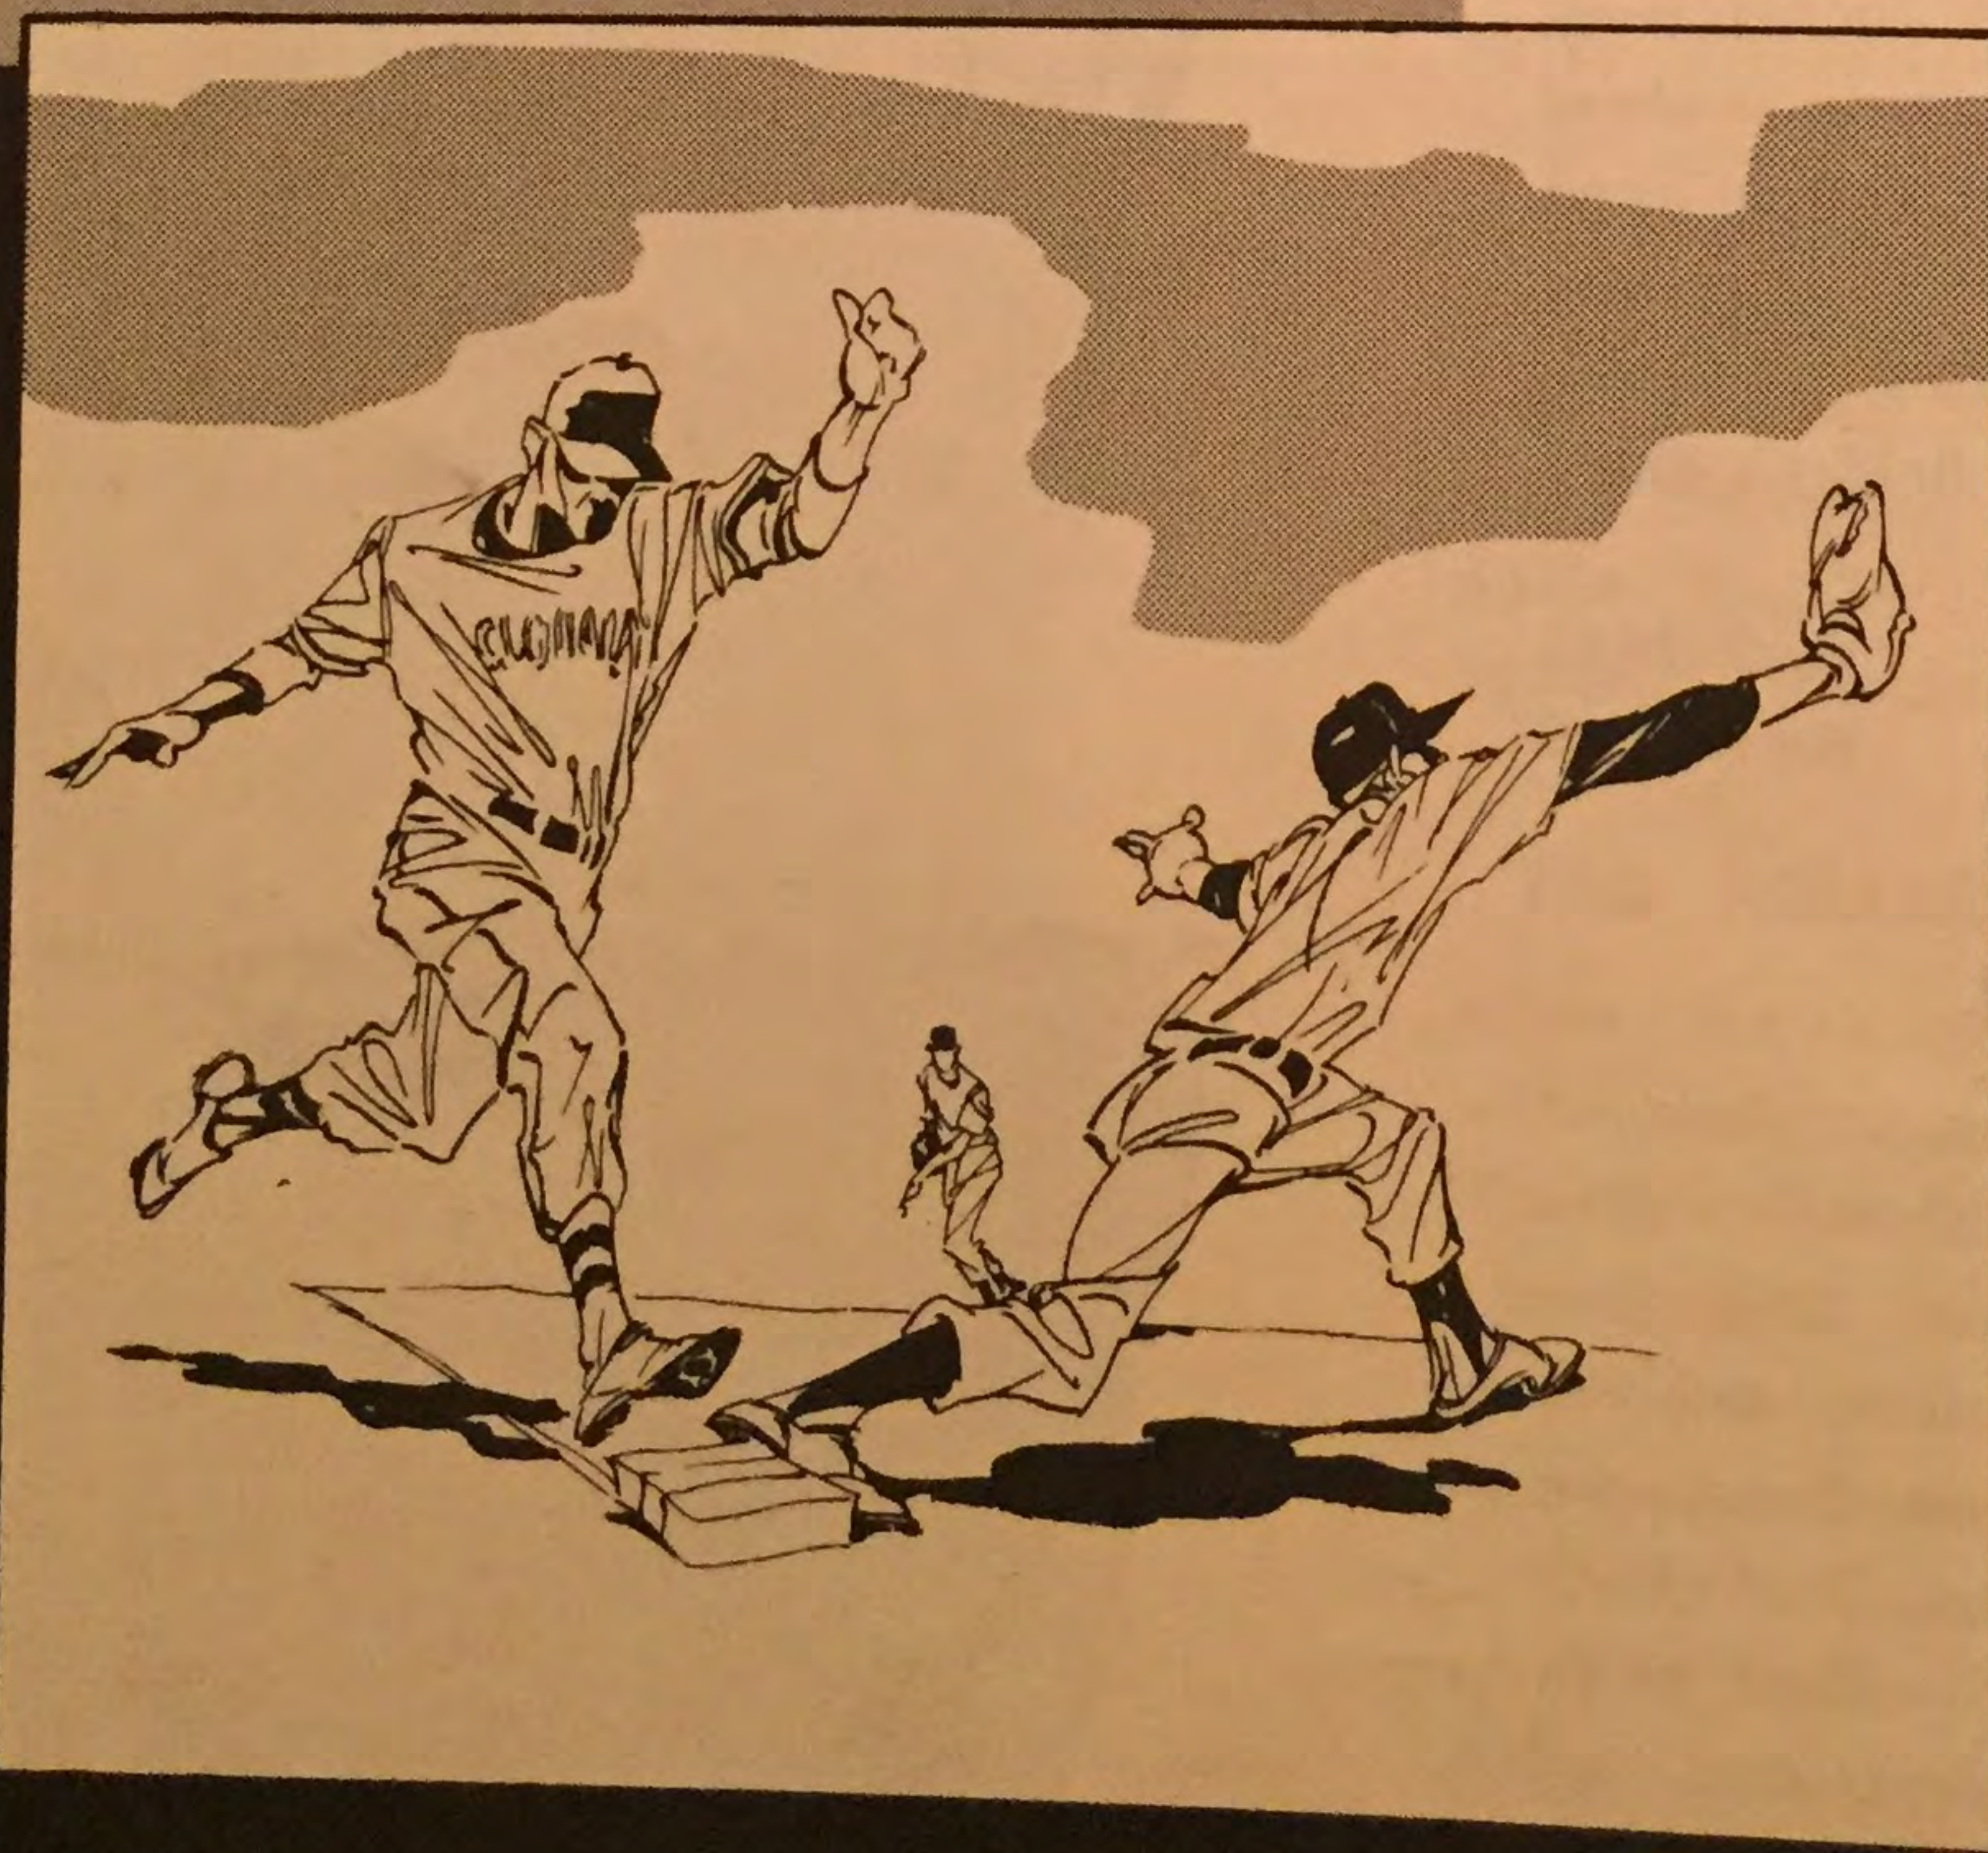

1. **Extended Palm Pocket**—creates double leather in trap area for strength. Insures more depth in trap area for improved fielding and easier play. Provides longer life to mitt.
2. **Snap Action**—designed for easier flexibility and easier closing around the ball.
3. **Shaped for Fielding**—like a shovel, shaped for scooping those ground balls and low throws.
4. **Palm Crotch Lacing**—provides extra reinforcement in critical ball area.
5. **Thumb "Snugger" Palm Lacing**—for better thumb control in opening and closing the mitt.
6. **Scoop Zone**—opening between web and palm extension to permit force of ball to wedge in . . . on wide or high throws. Prevents ball from rolling up and out of pocket. Enables you to hold on to more tough plays.

For that longer reach that means the difference between an infield hit and an out, Wilson BIG SCOOP mitts are unbeatable. Mitt control is vital in the fast action around the "initial sack," and BIG SCOOPS are designed and constructed for finger-tip control and snug, easy closing.

Blazing line drivers, torrid grounders, and low throws in the dirt are routine plays with a Wilson BIG SCOOP.

Don't play less than the best. Play a Wilson BIG SCOOP for that leading 1.000 fielding performance.
