### Early 1900's Spalding Crescent Glove

Talk about a glove with provenance. This one comes with a letter or note from the son of the man who owned it. It says, "Glove used & owned by Rutherford H. Snow my father while at Peddie Institute in Canberrry NJ." The Peddie Institute is a private boarding or prep school in Highstown, NJ that has turned out a number of Major Leaguers over the years. The Peddie baseball team was established in 1870. This is a wonderful example with a pristine asbestos lining, no ink and is all original. It's a high-end model measuring about 9" tall and 8 1/4" wide. We as collectors have always closed our eyes and wondered who owned these gloves in the past. Now is your chance to have one.....\$1,300

1955 Roy Campanella Stall & Dean Zipper Model 951 Catchers Mitt

Here is a rarity for you! Most collectors are familiar the Ken-Wel zipper models, and the Wilson and Ripon zippered heels. Were you aware that Stall & Dean tried their hand at zipper model in the 1950's? Well, they did and here is your chance to add one to your collection. This is a Roy Campanella model 951 mitt that appears in the 1955 Stall & Dean catalog. As you can see, it is near top of the line and is well constructed. The leather on the mitt is cracking in a few areas and the stampings are worn and difficult to read. The inner lining shows wear with cracking but is hole free. There is ink on the back wrist strap and faintly on the thumb. Stall & Dean patch intact but shows wear. The zipper is intact but I have not attempted to see if it still works. If you are a collector of odd or unusual models, this one may be up your alley!.....\$375

## 1959 Wilson A2000 Shooting Star Glove

Top of the line. With a bigger and a better hinge and more ergonomic shape, the Wilson A2000 took the baseball world by the storm in 1957, stealing the spotlight from longtime leader Rawlings.

All original lacing and solid leather. Sharp stampings. Pristine patch and perfect lining. Light but evident wear to back fingers. Top of the line, it retailed for \$36.50 in 1959 (\$322 in today's dollars)..... \$550

### Early 1900's Crescent Pad Catchers Mitt

This buckle back grommet web catchers mitt is a beast. It's an adult sized high-quality model. It shows moderate period use including a smooth lining that feels great on the hand with no holes inside. The grommet flap web is loose. It has a rivet on the right side of the buckle strap, which was probably a period repair. This is a great mitt. Guaranteed...\$495

Early 1900's A.J. Reach Crescent Glove

Just a beautiful example of a crescent glove. It has a perfect asbestos lining that feels so good and snug on the hand and the piping is just as nice. It has the period smaller button. All the seams are tight and the glove is incredibly supple. It measures about 9" tall x 8.5" wide. The black & gold A.J. Reach patch is outstanding. There are the faint remains of the name "Boyce" on the back of the thumb, pinky and the web. Never tried to research the name but that would be a fun project. Great glove!.....\$1,000

1920's Diamond Brand Fused Finger or Elongated Index Finger Glove

Extremely rare Diamond Brand example of the fused finger, elongated finger or stubby finger crotch glove (or whatever you want to call it). This glove was presumably modeled after the Donahue, Sarge Connelly and Lefty O'Doul Wilson models and Wilson referred to them as a "Specially designed first and second finger separated only about one inch from tips affords extra protection when catching a hard-driven ball." It has a smooth lining with no holes and feels nice on the hand. The red Diamond tag is starting to come loose on the left side. It has some chafing or minor cracking on the back of the thumb where it says "It's a Diamond. These models rarely come to market. If you get it and don't dig it, please send it back as this one is tough to part with.....\$450

1930's Tony Lazzeri Marathon 4227 Glove

Although he was overshadowed by Babe Ruth, Lou Gehrig and later Joe DiMaggio, many Yankees considered the scrappy second baseman the most valuable player on the team. From 1926 to 1937 Lazzeri's bat was a part of what the Yankees' terrified opponents dubbed "Murder's Row". His glove work around second base led to him being considered the best at his position during the era his career spanned. When they played the first All-Star Game in 1933 it was only natural Tony Lazzeri was the AL's second baseman. To this day Lazzeri is the only man in baseball history to hit a single, double, triple and grand slam home run in that order in one game and was the first in history to hit two grand slams in one game.

This glove is a really nice Marathon 4227 manufactured in the 1930's, The glove is in excellent condition overall, with a nice endorsement. Only flaw is a repair between the thumb and palm but, it doesn't take away from the overall gorgeous condition of this glove!.....\$195

**RAY SCHALK CATCHER'S MITTS**

**RAY SCHALK MODEL**  
Trade Mark

Designed by Schalk

Endorsed by Big League Catchers

Ray Schalk is rated one of the greatest catchers the game has ever seen. And his splendid record of performance has won him an enviable place in baseball's hall of fame. He started his remarkable career at Taylorville, Illinois, in 1911, went to Milwaukee for a short time and in 1912 joined the Chicago White Sox, where he became the mainstay of the team's catching staff and earned his reputation as one of the smartest, trickiest receivers in the sport. He took part in the World Series of 1917 and 1919, and at the close of the 1926 race was appointed manager of the Sox. Leaving this post in 1928, he coached the Giants in 1939 and signed up with the Cubs for 1930 and since then has managed the Buffalo Bisons of the International League.

507. Ray Schalk Catcher's Mitt. Designed to meet every requirement of the major league catcher. Small in size and perfect in balance, enabling the player to shift quickly.

Made of finest selected, specially tanned, tan color cowhide with special hand-constructed finest quality felt pad hand formed, moulded and closely hand-stitched, which insures long service. The palm and pad are set with special oil preparation in exactly the same manner major league catchers treat a mitt before breaking it in. Full leather laced-roll leather bound and equipped with Wilson patented buckless adjustable wrist strap. The finest catcher's mitt made. Right and left hand.

Each, \$16.50

508. Ray Schalk Catcher's Mitt, large size. Same as 507 except slightly larger size for those players who prefer a bigger mitt. Each, \$16.50

1930's Ray Schalk Wilson 507 Catchers Mitt

This is a Vintage 30's Wilson model 507 Ray Schalk catchers mitt. The glove is in excellent vintage condition. The leather is strong and complete with some chaffing on the front below the pocket. It has fully intact and complete leather lacing and leather piping. The strap on the back is fleece lined and the leather lining that greets your hand is especially smooth. This mitt feels great on and you can pound a nice pocket with your fist. It has a web that is tightly laced through a 2nd. layer of re-enforcing leather. The Ray Schalk facsimile signature and the Ray Schalk block letter stamping on the front are both readable as is the Wilson logo and model number 507. In the mid 30's the Ray Schalk model catchers mitt was Wilson's top of the line.

Ray Schalk played major league baseball from 1912-1929. During those years he was catcher for the Chicago White Sox and the New York Giants. He was considered the premier catcher in baseball during his playing years. He was known as the smartest, nerviest, and most competent catcher in baseball during his playing career. He was the first truly mobile catcher, backing up first and third and the only catcher to make a putout at every base. All that being said, he was especially known for his handling of pitchers. For all of these reasons he was rewarded with election to the Baseball Hall of Fame in 1955.

This is a great glove and a hard one to find. It is in excellent condition and carries the facsimile signature of the best catcher of turn of the century baseball, HOF Ray Schalk. Although the web has been replaced, it is in excellent condition and carries the facsimile signature of the best catcher of turn of the century baseball, HOF Ray Schalk.....\$245

REACH CATCHERS' MITTS

**No. 6A. Professional Moulded Model Each \$13.50**

The demand by Professional players for a mitt which would have a permanent shape and pocket resulted in the invention of our Patent Moulded Model. By forming into correct shape a face of one piece of leather, we produce a catching surface unobtainable in any other method of construction. The elimination of stitching on the face adds to the wearing qualities. This style of Mitt has been copied and imitated but never equalled. The degree of perfection acquired in this method of making a catcher's mitt cannot be attained in any other way.

The special Reach "Hold Fast" back is an important feature. One adjustment is all that is necessary to make it fit the hand. The thumb and face of Mitt are made adjustable by means of a strap and buckle attachment.

1950's Mickey Mantle Rawlings/Montgomery Ward 60-4241 Glove

This is a late 50's (possibly early 60's) USA model featuring the older facsimile Mantle endorsement. This glove was made by Rawlings for Montgomery Ward. It's a good sized glove in nice overall condition and feels great on the hand. The lining is smooth for the most part with no holes or damage. It still retains its original shape for the most part and doesn't fold over on its own. It has never been cleaned and would benefit from a light conditioning to shine it right up. **ANDY PAFKO PROFESSIONAL MODEL**

**A2080** This glove features Wilson's streamlined fingers which make for a deep-set pocket. It is a large size, five finger model—made of the finest selected black cowhide. Glove is fully lined with cowhide, and has roll leather binding and a deep grease set pocket. Other top quality features which help make this model a big seller are outseam fingers; one piece, non-rip seamless thumb; and hand sewed wool asbestos felt pad.

Excellent condition, probably never used.....\$375

1920's Rawlings 2BLX Basemitt

The mitt has seen some use but the patch, front markings and overall leather condition is still really good. Nice two-tone leather construction with white leather piping.....\$195

1941 Rawlings T75 Trapper Basemitt With Box

This is a Rawlings T75 Trapper Mitt issued in 1941 with original matching box. Glove is original with all laces and no writing. and supple in and out; it probably wasn't used much. Box is all there and intact. I don't think there ever was a cloth tag on it. For glove geeks, this was the first-year issue of this new design (Trapper, Claw) and was used by most pros in the 1940s. It sold for \$10 in 1941 .....\$150

1940's Joe Beggs Goldsmith Glove

Joe Beggs Goldsmith 1940's tunnel loop model glove. Great signature with some silver remaining. Leather is soft and supple – glove has a great feeling on your hand. Very little wear.....\$40

1920's D&M 1" Web Glove

High-end Draper and Maynard 1" web fielders glove. Perfect patch and button. Leather inside and out are soft and supple – no holes. Getting tough to find nice high-end gloves in this condition.....\$195

c. 1930's Grommet Webbed Glove

Rare and very tough to find fielders glove with intricate lacing between the fingers. I can't make out the manufacturer's name on the glove. The leather and eyelets between the fingers are original, however the leather lacing itself is a replacement. Glove leather is in very good shape with no holes.....\$200

c. 1940's Buckleback Glove

Interesting fielders glove with very unique finger lacing. Looks as if the lacing is original to the glove – I can't make out the manufacturer, however there is some stamping in the palm area. You will love the very unique wrist strap that is firmly attached. Glove leather is soft and pliable with no holes. Very cool looking glove.....\$110

1910's A.J. Reach Full Web Glove

Full web Reach fielders glove. Great reach tag and button. Full web is firmly attached. Great looking glove in excellent condition.....\$300

1930's Dave Bancroft James W. Brine  
HOF'er Endorsed Model Split Finger Glove

This is a high-quality glove that shows use and wear. The high-quality leather is soft and supple. The inner lining shows wear with some cracking and dryness but there are no holes. As seen in the picture, there is a vintage repair to the thumb seam. To the right of the endorsement, there is a slit in the leather - it doesn't go all the way through but is visible. Unfortunately, the James Brine tag is worn and unreadable. The endorsement is strong and fairly easy to see. Bancroft is one of those not so easy to find Hall of Fame endorsements. Here is your chance to add one to your collection.....\$275

**No. A5—"Dave Bancroft" Model.**  
Good quality oil tanned. Has thumb reinforcement and eyelet. Thumb and finger lace. Full leather lined. Diverted finger seams. On the lace and eyelet model. Price . . . .**\$3.00**
